CAREER OBJECTIVE

Passionate Computer Science Engineering student with a strong foundation in data structures, algorithms, and frontend technologies including React.js, JavaScript, HTML, and CSS. Actively building expertise in MERN stack development and eager to contribute to innovative projects while growing within a collaborative software team.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering   2023 – 2026
KGISL Institute of Technology, Coimbatore

- CGPA: 7.76

Diploma in Agricultural Technology   2020 – 2022
Sakthi Polytechnic College, Erode

- Percentage: 96%

PROJECTS

Task Master Web App – Full Stack Development   `github.com/Kousigaraj/task-master`

- Built a responsive task management web application with a modern UI using React.js, Bootstrap, and Zustand for global state management, featuring a sidebar layout optimized for both desktop and mobile.
- Implemented secure user authentication and persistent task storage with Node.js, Express.js, and MongoDB, enabling full CRUD operations and task categorization (pending/completed).
- **Tech Stack:** React.js, Bootstrap, Zustand, Node.js, Express.js, MongoDB, JavaScript

React Portfolio Website   `github.com/Kousigaraj/My-Portfolio`

- Designed and implemented a responsive and interactive portfolio website using React.js, highlighting personal projects, skills, and contact details.
- Integrated Formspree API for secure and efficient contact form submissions without a backend.
- **Tech Stack:** React.js, Formspree, CSS

Service Locator Web App – Frontend Development   `github.com/Kousigaraj/realtime-service-locator`

- Engineered the frontend UI of a Service Locator web application using React.js and Bootstrap for a responsive and intuitive user experience.
- Collaborated effectively with a team of 5 members to successfully deliver the service locator app on schedule.
- **Tech Stack:** React.js, Bootstrap, JavaScript

SKILLS

Programming Languages: Java (Core), C (Intermediate), JavaScript (Intermediate)

Frontend Development: HTML, CSS, React.js (Intermediate), Bootstrap

Backend Development: Node.js (Basic), Express.js (Basic)

Databases: MySQL, MongoDB (Basic)

Tools & Platforms: Git, GitHub, Visual Studio Code, Linux (Basic)

Soft Skills: Adaptability, Team Collaboration, Communication, Problem Solving

CERTIFICATES

- **Introduction to Git and GitHub** | Coursera | March 2025
- **Linux for Beginners with Hands-on Labs** | Coursera | March 2025
- **Front End Development Libraries** | freeCodeCamp | January 2025
- **Responsive Web Design** | freeCodeCamp | July 2023
